Officials are:

- Pen shows — Kyle Colyer
- Junior shows — Kevin Jensen
- Open class/hill shows — Jim Ligon

From the NSA Executive Director.....

Diane Duren, Rising City, NE

Now is the time to be thinking about your entries to the 2017 NE Cattlemen's Classic in February. Please contact Diane Duren if you are in need of any information for entries due November 25th at 402-367-2272. Remember we will show the 3/4 bloods with the PB's. **PLEASE NOTE- For all animals entered to show and sale at the NE Cattlemen's Classic they must be considered TF (Tested Free), or PF (Pedigree Free), or DF (Documented Free) or AF (Assumed Free). Other entries that show up as PR (Population Risk) or CL (Carrier in Lineage) must be blood tested and be considered TF, or PF, or DF, or AF by the ASA by January 1st (not just submitted for testing by January 1st). All substituted animals must be blood tested and be considered TF, or PF, or DF, or AF by the ASA by February 7th. Any entry that is considered TC (Tested Carrier) is not eligible to show/sale in the Simmental division.** (Please let Diane know if you are substituting)

Hopefully, many of the juniors are gearing up for the 2017 Junior Nationals that will be held in Hattiesburg, MS next July. Watch for entry deadlines to make sure you don't miss getting entered.

Next year's NE Jr. Beef Expo will be held June 2-4, 2017 in Norfolk, NE. We hope to see some new faces involved, as this is one of the best shows for juniors to become involved with breed associations and compete in educational contests/cattle shows prior to regionals and nationals.

The next time we have a Scoop published will be January 2017. I'm hopeful that the new year brings much happiness for everyone. I know, personally, that 2016 was a tough year with the loss of my mother, and I'm ready to focus on the positive things in life and enjoy our three grandchildren. I also want to thank all of my Simmental friends for the support you provided during the most difficult times.

The holiday season will be upon us very soon. Please enjoy the time with your family during the holidays and please travel safe.

Until next time, Diane

NE Cattlemen's Classic 2017 Entries

Now is the time to be thinking about your entries to the 2017 NE Cattlemen's Classic in February. Please contact Diane Duren at 402-367-2272 if you are in need of any information for entries due November 25th.

Remember we will show the 3/4 bloods with the PB's. **NOTE: For all animals entered to show and sale at the NE Cattlemen's Classic they must be considered TF (Tested Free), or PF (Pedigree Free), or DF (Documented Free) or AF (Assumed Free). Other entries that show up as PR (Population Risk) or CL (Carrier in Lineage) must be blood tested and be considered TF, or PF, or DF, or AF by the ASA by January 1st (not just submitted for testing by January 1st). All substituted animals must be blood tested and be considered TF, or PF, or DF, or AF by the ASA by February 7th. Any entry that is considered TC (Tested Carrier) is not eligible to show/sale in the Simmental division.** (Please let Diane know if you are substituting) Diane will have some blood kits on hand at her office, too.

In Remembrance.....

Long time Nebraska Simmental Association members, Arden Uhler and his wife, Karen, both passed away during this calendar year. They were the holders of ASA membership number 3700. The Uhler's were from Verdigre, NE, and Karen died on January 3rd, and Arden died on June 22nd.

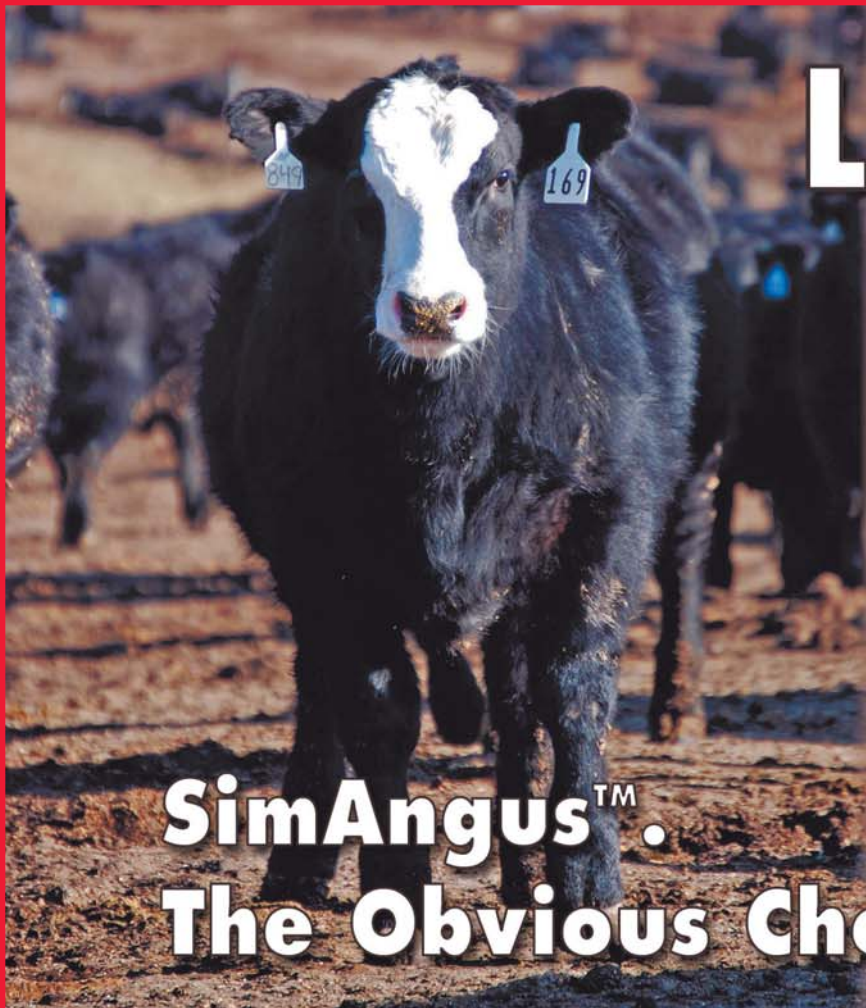

Arden's lifelong passion was his cowherd, which he began in 1973. Uhler marketed cattle over a 30-year period through an annual production sale.

The couple is survived by two children; Kathy (Mike) Hrbek, Hrbek Simmentals; and Jeff (Karla) Unlir; seven grandchildren and four great grandsons.

It's ok. Everybody Is.

SimAngus™.
The Obvious Choice.

2012 Across-Breed EPD
 Table, GPE Rep. 22,
 MARC, USDA
 * Major Continental
 Breeds — Simmental,
 Gelbvieh, Limousin,
 Charolais

Trait	Simmental Rank vs. Major Continental Breeds*	Angus/Red Angus Rank vs. Major British Breeds
Marbling Score	First	Second
Carcass Weight	First	First
# Retail Product	Second	First
Weight Gain Feed Efficiency	First	Second
Weaning Weight	Second	First
Post Weaning Gain	Second	Second
Shear Force	First	First

"Crossbred steers with a **50:50 ratio of Continental European to British breed** inheritance are likely to produce a more **optimum** balance between carcass **quality grade** and **yield grade** than crossbred or straightbred steers that represent either 100% British breed, or 100% Continental European breeding."

— MARC GPE Progress Report No. 22, USDA
